this paragraph.

2. A distributor licensed under KRS 138.195(7)(a) may sell tobacco
products[ or vapor products] to another distributor licensed under KRS

purchasing licensed distributor shall be the distributor liable for the tax.

3. A licensed distributor or licensed retail distributor shall:

   a. Identify and display the distributor's or retail distributor's license
      number on the invoice to the retailer; and

   b. Identify and display the excise tax separately on the invoice to the

(5) The department may prescribe forms and promulgate administrative regulations to execute and administer the provisions of this section.

(6) The General Assembly recognizes that increasing taxes on tobacco products should reduce consumption, and therefore result in healthier lifestyles for Kentuckians. The relative taxes on tobacco products proposed in this section reflect the growing data from scientific studies suggesting that although smokeless tobacco poses some health risks, those health risks are significantly less than the risks posed by other forms of tobacco products. Moreover, the General Assembly acknowledges that some in the public health community recognize that tobacco harm reduction should be a complementary public health strategy regarding tobacco products. Taxing tobacco products according to relative risk is a rational tax policy and may well serve the public health goal of reducing smoking-related mortality and morbidity and lowering health care costs associated with tobacco-related disease.

(7) Any person subject to the taxes imposed under subsections (1) and (2) of this section that:

(a) Files an application related to a modified risk tobacco product shall report to the department that an application has been filed within thirty (30) days of that filing; and

2. a. As used in subparagraph 1. of this paragraph, "purchases price"
means the actual amount paid for the closed vapor cartridge or
the open vapor system subject to the tax imposed by this
subsection.

b. If the retailer or subjobber cannot determine the actual amount
paid for each closed vapor cartridge or open system, the retailer
or subjobber may use as the purchase price the amount per unit
paid as reflected on the most recent invoice received prior to
August 1, 2022, for the same category of vapor product.
c. To prevent double taxation, if the invoice used by the retailer or subjobber to determine the purchase price of the vapor product does not separately state the tax paid by the wholesaler, the retailer or subjobber may reduce the amount paid per unit by fifteen percent (15%); and

2. a. As used in this paragraph, "purchase price" means the actual amount paid for the other tobacco products subject to the tax imposed by this paragraph.

b. If the retailer or subjobber cannot determine the actual amount paid for each item of other tobacco product, the retailer or subjobber may use as the purchase price the amount per unit paid as reflected on the most recent invoice received prior to August 1, 2022 [April 1, 2009], for the same category of other tobacco product.

c. To prevent double taxation, if the invoice used by the retailer or
subjobber [sub-jobber] to determine the purchase price of the other tobacco product does not separately state the tax paid by the wholesaler, the retailer or subjobber [sub-jobber] may reduce the amount paid per unit by fifteen percent (15%) [seven and one half percent (7.5%)].

(3) (a) The taxes imposed by this section may be paid in three (3) installments. The first installment, in an amount equal to at least one-third (1/3) of the total amount due, shall be remitted with the return provided by the department on or before August 10, 2022 [July 10, 2018]. Section 28. KRS 141.120 is amended to read as follows:

This section applies to taxable years beginning on or after January 1, 2018.

(1) As used in this section:

(a) "Apportionable income" means:

1. All income that is apportionable under the Constitution of the United States and is not allocated under this section, including:
   a. Income arising from transactions and activity in the regular course of the taxpayer's trade or business; and
   b. Income arising from tangible and intangible property if the acquisition, management, employment, development, or disposition of the property is or was related to the operation of the taxpayer's trade or business; and

2. Any income that would be allocable to this state under the Constitution of the United States, but that is apportioned rather than allocated pursuant to this section;

(b) "Commercial domicile" means the principal place from which the trade or business of the taxpayer is directed or managed;

(c) "Financial organization" means any bank, trust company, savings bank, industrial bank, land bank, safe deposit company, private banker, savings and loan association, cooperative bank, small loan company, sales finance company, investment company, or any similar type of entity;

(d) "Non-apportionable income" means all income other than apportionable income;

(e) "Receipts" means all gross receipts of the taxpayer that are not allocated under this section, and that are received from transactions and activity in the regular course of the taxpayer's trade or business, except that receipts of a taxpayer
from:

1. Hedging transactions; and
2. The maturity, redemption, sale, exchange, loan, or other disposition of cash or securities;

shall be excluded; and

(f) "This state" means the Commonwealth of Kentucky.

(2) Any taxpayer having income from business activity which is taxable both within and without this state, other than activity as a provider as defined in KRS 136.602, a financial organization, or a public service company, shall allocate and apportion net income as provided in this section.

(3) For purposes of allocation and apportionment of income under this section, a taxpayer is taxable in another state if:

(a) In that state the taxpayer is subject to a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax; or

(b) That state has jurisdiction to subject the taxpayer to a net income tax regardless of whether, in fact, the state does or does not do so.

(4) Rents and royalties from real or tangible personal property, capital gains, interest, or patent or copyright royalties, to the extent that they constitute nonapportionable income, shall be allocated as provided in subsections (5) to (8) of this section.

(5) (a) Net rents and royalties from real property located in this state are allocable to this state.

(b) Net rents and royalties from tangible personal property are allocable to this state:

1. If and to the extent that the property is utilized in this state; or

2. In their entirety if the taxpayer's commercial domicile is in this state and the taxpayer is not organized under the laws of or taxable in the state in
which the property is utilized.

(c) The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction the numerator of which is the number of days of physical location of the property in this state during the rental or royalty period in the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during all rental or royalty periods is unknown or unascertainable by the taxpayer, tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payer obtained possession.

(6) (a) Capital gains and losses from sales of real property located in this state are allocable to this state.

(b) Capital gains and losses from sales of tangible personal property are allocable to this state if:
   1. The property had a situs in this state at the time of the sale; or
   2. The taxpayer's commercial domicile is in this state and the taxpayer is not taxable in the state in which the property had a situs.

(c) Capital gains and losses from sales of intangible personal property are allocable to this state if the taxpayer's commercial domicile is in this state.

(7) Interest is allocable to this state if the taxpayer's commercial domicile is in this state.

(8) (a) Patent and copyright royalties are allocable to this state:
   1. If and to the extent that the patent or copyright is utilized by the payer in this state; or
   2. If and to the extent that the patent or copyright is utilized by the payer in a state in which the taxpayer is not taxable and the taxpayer's
commercial domicile is in this state.

(b) A patent is utilized in a state to the extent that it is employed in production, fabrication, manufacturing, or other processing in the state or to the extent that a patented product is produced in the state. If the basis of receipts from patent royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the patent is utilized in the state in which the taxpayer's commercial domicile is located.

(9) All apportionable income shall be apportioned to this state by multiplying the income by a fraction:

(a) For taxable years beginning on or after January 1, 2018, but before January 1, 2022, the numerator of which is the total receipts of the taxpayer in this state during the taxable year and the denominator of which is the total receipts of the taxpayer everywhere during the taxable year; and

(b) For taxable years beginning on or after January 1, 2022, the numerator of which is the property factor plus the payroll factor plus the receipts factor and the denominator of which is three (3).

(10) The property factor is a fraction the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this state during the taxable year and the denominator of which is the average value if all of the taxpayer's real and tangible personal property owned or rented and used during the taxable year.

(11) Property owned by the taxpayer is valued at its original cost. Property rented by the taxpayer is valued at eight (8) times the net annual rental rate. Net annual rental rate is the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.

(12) The average value of property shall be determined by averaging the values at the beginning and ending of the taxable year. The department may require the
averaging of monthly values during the taxable year if reasonably required to reflect properly the average value of the taxpayer's property.

(13) The payroll factor is a fraction the numerator of which is the total amount paid in this state during the taxable year by the taxpayer for compensation and the denominator of which is the total compensation paid everywhere during the taxable year.

(14) Compensation is paid in this state if:

(a) The individual's service is performed entirely within this state;

(b) The individual's service is performed both within and without the state, but the service performed without the state is incidental to the individual's service within the state; or

(c) Some of the service is performed within this state and the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the state; or the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in this state.

(15) The receipts factor is a fraction the numerator of which is the total receipts of the taxpayer in this state during the taxable year and the denominator of which is the total receipts of the taxpayer everywhere during the taxable year.

(16) Receipts from the sale of tangible personal property are in this state if:

(a) The property is delivered or shipped to a purchaser, other than the United States government, within this state regardless of the f.o.b. point or other conditions of the sale; or

(b) The property is shipped from an office, store, warehouse, factory, or other place of storage in this state and:

1. The purchaser is the United States government; or
2. The taxpayer is not taxable in the state of the purchaser.

(a) Receipts, other than receipts described in subsection (16) of this section, are in this state if the taxpayer's market for the sales is in this state.

The taxpayer's market for sales is in this state:

1. In the case of sale, rental, lease, or license of real property, if and to the extent the property is located in this state;

2. In the case of rental, lease, or license of tangible personal property, if and to the extent the property is located in this state;

3. In the case of sale of a service, if and to the extent the service is delivered to a location in this state; and

4. In the case of intangible property:
   a. That is rented, leased, or licensed, if and to the extent the property is used in this state, provided that intangible property utilized in marketing a good or service to a consumer is used in this state if that good or service is purchased by a consumer who is in this state; and
   b. That is sold, if and to the extent the property is used in this state, provided that:
      i. A contract right, government license, or similar intangible property that authorizes the holder to conduct a business activity in a specific geographic area is used in this state if the geographic area includes all or part of this state;
      ii. Receipts from intangible property sales that are contingent on the productivity, use, or disposition of the intangible property shall be treated as receipts from the rental, lease, or licensing of the intangible property under subdivision a. of this subparagraph; and
iii. All other receipts from a sale of intangible property shall be excluded from the numerator and denominator of the receipts factor.

(b) If the state or states of assignment under paragraph (a) of this subsection cannot be determined, the state or states of assignment shall be reasonably approximated.

(c) If the taxpayer is not taxable in a state to which a receipt is assigned under paragraph (a) or (b) of this subsection, or if the state of assignment cannot be determined under paragraph (a) of this subsection or reasonably approximated under paragraph (b) of this subsection, the receipt shall be excluded from the denominator of the receipts factor.

(d) The department may promulgate administrative regulations necessary to carry out the purposes of this section.

(18)[(12)]

(a) If the allocation and apportionment provisions of this section do not fairly represent the extent of the taxpayer's business activity in this state, the taxpayer may petition for or the department may require, in respect to all or any part of the taxpayer's business activity, if reasonable:

1. Separate accounting;

2. The inclusion of one (1) or more additional factors which will fairly represent the taxpayer's business activity in this state; or

3. The employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

(b) 1. If the allocation and apportionment provisions of this section do not fairly represent the extent of business activity in this state of taxpayers engaged in a particular industry or in a particular transaction or activity, the department may, in addition to the authority provided in paragraph (a) of this subsection, promulgate administrative regulations for
determining alternative allocation and apportionment methods for those
taxpayers.

2. An administrative regulation promulgated pursuant to this paragraph
shall be applied uniformly, except that with respect to any taxpayer to
whom the administrative regulation applies, the taxpayer may petition
for or the department may require adjustment according to paragraph (a)
of this subsection.

(c) 1. The party petitioning for or the department requiring the use of any
method to effectuate an equitable allocation and apportionment of the
taxpayer's income pursuant to paragraph (a) of the subsection shall prove
by clear and convincing evidence:

a. That the allocation and apportionment provisions of this section do
not fairly represent the extent of the taxpayer's business activity in
this state; and

b. That the alternative to the provisions is reasonable.

2. The same burden of proof shall apply whether the taxpayer is petitioning
for, or the department is requiring, the use of any reasonable method to
effectuate an equitable allocation and apportionment of the taxpayer's
income. Notwithstanding the previous sentence, if the department can
show that in any two (2) of the prior five (5) taxable years, the taxpayer
had used an allocation or apportionment method at variance with its
allocation or apportionment method or methods used for the other
taxable years, then the department shall not bear the burden of proof in
imposing a different method provided by paragraph (a) of this
subsection.

(d) If the department requires any method to effectuate an equitable allocation and
apportionment of the taxpayer's income, the department cannot impose any
civil or criminal penalty with reference to the tax due that is attributable to the
taxpayer's reasonable reliance solely on the allocation and apportionment
provisions of this subsection.

(e) A taxpayer that has received written permission from the department to use a
reasonable method to effectuate an equitable allocation and apportionment of
the taxpayer's income shall not have that permission revoked with respect to
transactions and activities that have already occurred unless there has been a
material change in, or a material misrepresentation of, the facts provided by
the taxpayer upon which the department reasonably relied.

5. b. Has a tax regime which lacks transparency. (b) The department may, by administrative regulation, require that the combined report include the income and associated apportionment factors of any persons[corporations] that are not included as provided by paragraph (a) of this subsection, but that are members of a unitary business, in order to reflect proper apportionment of income of the entire unitary businesses. Authority to require combination by administrative regulation under this paragraph includes authority to require combination of persons[corporations] that are not, or would not be combined, if the corporation were doing business in this state.

(c) In addition, if the department determines that the reported income or loss of a taxpayer engaged in a unitary business with any person[corporation] not included as provided by paragraph (a) of this subsection represents an avoidance or evasion of tax by the taxpayer, the department may, on a case-by-case basis, require all or any part of the income and associated apportionment factors of the person[corporation] be included in the taxpayer's combined report.

(d) With respect to the inclusion of associated apportionment factors as provided in paragraph (a) of this subsection, the department may require the inclusion of any one (1) or more additional factors which will fairly represent the taxpayer's business activity in this state, or the employment of any other method to effectuate a proper reflection of the total amount of income subject to apportionment and an equitable allocation and apportionment of the taxpayer's income.
((e)) A unitary business shall consider the combined gross receipts and combined income from all sources of all members under subsection (8) of this section, including eliminating entries for transactions among the members under subsection (8)(e) of this section.

((f)) Notwithstanding paragraphs (a) to (e) of this subsection, a consolidated return may be filed as provided in KRS 141.201 if the taxpayer makes an election according to KRS 141.201.

((3)) (4) (a) The use of a combined report does not disregard the separate identities of the taxpayer members of the combined group.

(b) Each taxpayer member is responsible for tax based on its taxable income or loss apportioned or allocated to this state, which shall include, in addition to the other types of income, the taxpayer member's share of apportionable income of the combined group, where apportionable income of the combined group is calculated as a summation of the individual net incomes of all members of the combined group.

(c) A member's net income is determined by removing all but apportionable income, expense, and loss from that member's total income as provided in subsection (4) of this section.

((4)) (5) (a) Each taxpayer member is responsible for tax based on its taxable income or loss apportioned or allocated to this state, which shall include:

1. Its share of any income apportionable to this state of each of the combined groups of which it is a member, determined under subsection (5) of this section;

2. Its share of any income apportionable to this state of a distinct business activity conducted within and without the state wholly by the taxpayer member, determined under KRS 141.120;

3. Its income from a business conducted wholly by the taxpayer member
entirely within the state;

4. Its income sourced to this state from the sale or exchange of capital or assets, and from involuntary conversions, as determined under subsection (7)(8)(g) of this section;

5. Its nonapportionable income or loss allocable to this state, determined under KRS 141.120;

6. Its income or loss allocated or apportioned in an earlier year, required to be taken into account as state source income during the income year, other than a net operating loss; and

7. Its net operating loss carryover.

(b) No tax credit or post-apportionment deduction earned by one (1) member of the group, but not fully used by or allowed to that member, may be used in whole or in part by another member of the group or applied in whole or in part against the total income of the combined group, except as provided in paragraph (c) of this subsection.

(c) A post-apportionment deduction carried over into a subsequent year as to the member that incurred it, and available as a deduction to that member in a subsequent year, will be considered in the computation of the income of that member in the subsequent year, regardless of the composition of that income as apportioned, allocated, or wholly within this state. If the taxable income computed pursuant to KRS 141.039 results in a net loss for a taxpayer member of the combined group, that taxpayer member has a Kentucky net operating loss, subject to the net operating loss limitations and carry forward provisions of KRS 141.011. No prior year net operating loss carryforward shall be available to entities that were not doing business in this state in the year in which the loss was incurred. A Kentucky net operating loss carryover incurred by a taxpayer member of a combined group shall be deducted from
income or loss apportioned to this state pursuant to this section as follows:

1. For taxable years beginning on or after the first day of the initial taxable year for which a combined unitary tax return is required under this section, if the computation of a combined group’s Kentucky net income before apportionment to this state results in a net operating loss, a taxpayer member of the group may carry over its share of the net operating loss as apportioned to this state, as calculated under this section and in accordance with KRS 141.120 or 141.121, and it shall be deductible from a taxpayer member’s apportioned net income derived from the unitary business in a future tax year to the extent that the carryover and deduction is otherwise consistent with KRS 141.011;

2. Where a taxpayer member of a combined group has a Kentucky net operating loss carryover derived from a loss incurred by a combined group in a tax year beginning on or after the first day of the initial tax year for which a combined unitary tax return is required under this section, then the taxpayer member may share the net operating loss carryover with other taxpayer members of the combined group if the other taxpayer members were members of the combined group in the tax year that the loss was incurred. Any amount of net operating loss carryover that is deducted by another taxpayer member of the combined group shall reduce the amount of net operating loss carryover that may be carried over by the taxpayer member that originally incurred the loss;

3. Where a taxpayer member of a combined group has a net operating loss carryover derived from a loss incurred in a tax year prior to the initial tax year for which a combined unitary tax return is required under this section, the carryover shall remain available to be deducted by that taxpayer member and any other taxpayer members of the combined
group, but in no case shall the deduction reduce any taxpayer member's Kentucky apportioned taxable income by more than fifty percent (50%) in any taxable year, other than the taxpayer member that originally incurred the net operating loss, in which case no limitation is provided except as provided by Section 172 of the Internal Revenue Code. Any net operating loss carryover that is not utilized in a particular taxable year shall be carried over by the taxpayer member that generated the loss and utilized in the future consistent with the limitations of this subparagraph; or

4. Where a taxpayer member of a combined group has a net operating loss carryover derived from a loss incurred in a tax year during which the taxpayer member was not a taxpayer member of the combined group, the carryover shall remain available to be deducted by that taxpayer member or other taxpayer members, but in no case shall the deduction reduce any taxpayer member's Kentucky apportioned taxable income by more than fifty percent (50%) in any taxable year, other than the taxpayer member that originally incurred the net operating loss, in which case no limitation is provided except as provided by Section 172 of the Internal Revenue Code. Any net operating loss carryover that is not utilized in a particular taxable year, shall be carried over by the taxpayer member that generated the loss and utilized in the future consistent with the limitations of this subparagraph.

(5)(6) The taxpayer's share of the business income apportionable to this state of each combined group of which it is a member shall be the product of:

(a) The apportionable income of the combined group, determined under subsection (6)(7) of this section; and

(b) The taxpayer member's apportionment fraction, determined under KRS
141.120, including in the sales factor numerator the taxpayer's sales associated with the combined group's unitary business in this state, and including in the denominator the sales of all members of the combined group, including the taxpayer, which sales are associated with the combined group's unitary business wherever located. The sales of a pass-through entity shall be included in the determination of the partner's apportionment percentage in proportion to a ratio, the numerator of which is the amount of the partner's distributive share of the pass-through entity's unitary income included in the income of the combined group as provided in subsection (7) of this section and the denominator of which is the amount of pass-through entity's total unitary income.

The apportionable income of a combined group is determined as follows:

(a) From the total income of the combined group, subtract any income, and add any expense or loss, other than apportionable income, expense, or loss of the combined group; and

(b) Except as otherwise provided, the total income of the combined group is the sum of the income of each member of the combined group determined under federal income tax laws, as adjusted for state purposes, as if the member were not consolidated for federal purposes; and

(b) From the total income of the combined group determined under subsection (8) of this section, subtract any income and add any expense or loss, other than the apportionable income, expense, or loss of the combined group.

(a) For any member incorporated in the United States, or included in a consolidated federal corporate income tax return, the income to be included in the total income of the combined group shall be the taxable income for the corporation after making appropriate adjustments under Section 29 of this Act.
(b) 1. For any member not included in paragraph (a) of this subsection, the income to be included in the total income of the combined group shall be determined as follows:

a. A profit and loss statement shall be prepared for each foreign branch or corporation in the currency in which the books of account of the branch or corporation are regularly maintained;

b. Adjustments shall be made to the profit and loss statement to conform it to the accounting principles generally accepted in the United States for the preparation of such statements except as modified by this section;

c. Adjustments shall be made to the profit and loss statement to conform it to the tax accounting standards required by Section 29 of this Act;

d. Except as otherwise provided by administrative regulation, the profit and loss statement of each member of the combined group, and the apportionment fraction related thereto, whether United States or foreign, shall be translated into the currency in which the parent company maintains its books and records; and

e. Income apportioned to this state shall be expressed in United States dollars.

2. a. In lieu of the procedures provided in subparagraph 1. of this paragraph, and subject to the determination of the department that it reasonably approximates income as determined under this chapter, any member not included in paragraph (a) of this subsection may determine its income on the basis of the consolidated profit and loss statement which includes the member and which is prepared for filing with the Securities and
Exchange Commission by related corporations.

b. If the member is not required to file with the Securities and Exchange Commission, the department may allow the use of the consolidated profit and loss statement prepared for reporting to shareholders and subject to review by an independent auditor.

c. If the statements provided in subdivisions a. and b. of this subparagraph do not reasonably approximate income as determined under this chapter, the department may accept those statements with appropriate adjustments to approximate that income.

(c) To determine the total income of the combined group, taxpayer members shall take into account all or a portion of the income and apportionment factor of only the following members otherwise included in the combined group as provided in subsection (3) of this section:

(a) The entire income and apportionment percentage of any member, incorporated in the United States or formed under the laws of any state, the District of Columbia, or any territory or possession of the United States, that earns less than eighty percent (80%) of its income from sources outside of the United States, the District of Columbia, or any territory or possession of the United States;

(b) Any member that earns more than twenty percent (20%) of its income, directly or indirectly, from intangible property or service related activities that are deductible against the apportionable income of other members of the combined group, to the extent of that income and the apportionment factor related to that income. If a non-United States corporation is includible as a member in the combined group, to the extent that the non-United States corporation's income is excluded from United States taxation pursuant to the
provisions of a comprehensive income tax treaty, the income or loss is not includible in the combined group's net income or loss. The member's expenses or apportionment factors attributable to income that is excluded from United States taxation pursuant to the provisions of a comprehensive income tax treaty are not to be included in the combined report;

(c) The entire income and apportionment factor of any member that is doing business in a tax haven. If the member's business activity within a tax haven is entirely outside the scope of the laws, provisions, and practices that cause the jurisdiction to meet the definition established in subsection (2)(d) of this section, the activity of the member shall be treated as not having been conducted in a tax haven;

(d) If a unitary business includes income from a pass-through entity, the income to be included in the total income of the combined group shall be the member of the combined group's direct and indirect distributive share of the pass-through entity's unitary income.  

(e) **Apportionable** income from an intercompany transaction between members of the same combined group shall be deferred in a manner similar to 26 C.F.R. 1.1502-13. Upon the occurrence of any of the following events, deferred income resulting from an intercompany transaction between members of a combined group shall be restored to the income of the seller, and shall be apportionable income earned immediately before the event:

1. The object of a deferred intercompany transaction is:
   a. Resold by the buyer to an entity that is not a member of the combined group;
   b. Resold by the buyer to an entity that is a member of the combined group for use outside the unitary business in which the buyer and seller are engaged; or
c. Converted by the buyer to a use outside the unitary business in which the buyer and seller are engaged; or

2. The buyer and seller are no longer members of the same combined group, regardless of whether the members remain unitary.

(e) A charitable expense incurred by a member of a combined group shall, to the extent allowable as a deduction provided by Section 170 of the Internal Revenue Code, be subtracted first from the apportionable income of the combined group, subject to the income limitations of that section applied to the entire apportionable income of the group, and any remaining amount shall then be treated as a nonapportionable expense allocable to the member that incurred the expense, subject to the income limitations of that section applied to the nonapportionable income of that specific member. Any charitable deduction disallowed under this paragraph, but allowed as a carryover deduction in a subsequent year, shall be treated as originally incurred in the subsequent year by the same member, and this paragraph shall apply in the subsequent year in determining the allowable deduction in that year.

(f) Gain or loss from the sale or exchange of capital assets, property described by Section 1231(a)(3) of the Internal Revenue Code, and property subject to an involuntary conversion shall be removed from the total separate net income of each member of a combined group and shall be apportioned and allocated as follows:

1. For each class of gain or loss, including short-term capital, long-term capital, Internal Revenue Code Section 1231, and involuntary conversions, all members' gain and loss for the class shall be combined, without netting between the classes, and each class of net gain or loss separately apportioned to each member using the member's apportionment percentage determined under subsection (5) of this
section;

2. Each taxpayer member shall then net its apportioned business gain or loss for all classes, including any apportioned gain and loss from other combined groups, against the taxpayer member's nonapportionable gain and loss for all classes allocated to this state, using the rules of Sections 1231 and 1222 of the Internal Revenue Code, without regard to any of the taxpayer member's gains or losses from the sale or exchange of capital assets, Internal Revenue Code Section 1231 property, and involuntary conversions which are nonapportionable items allocated to another state;

3. Any resulting state source income or loss, if the loss is not subject to the limitations of Section 1211 of the Internal Revenue Code, of a taxpayer member produced by the application of subparagraphs 1. and 2. of this paragraph shall then be applied to all other state source income or loss of that member; and

4. Any resulting state source loss of a member that is subject to the limitations of Section 1211 of the Internal Revenue Code shall be carried forward by that member, and shall be treated as state source short-term capital loss incurred by that member for the year for which the carryover applies.

\[(g)\]

Any expense of one (1) member of the unitary group which is directly or indirectly attributable to the nonapportionable or exempt income of another member of the unitary group shall be allocated to that other member as corresponding nonapportionable or exempt expense, as appropriate.

\[(8)\]

(a) As a filing convenience, and without changing the respective liability of the group members, members of a combined reporting group shall annually designate one (1) taxpayer member of the combined group to file a single
return in the form and manner prescribed by the department, in lieu of filing their own respective returns.

(b) The taxpayer member designated to file the single return shall consent to act as surety with respect to the tax liability of all other taxpayers properly included in the combined report, and shall agree to act as agent on behalf of those taxpayers for the taxable year for matters relating to the combined report. If for any reason the surety is unwilling or unable to perform its responsibilities, tax liability may be assessed against the taxpayer members.

⇒Section 33. KRS 141.433 is amended to read as follows:

(1) A qualified community development entity that seeks to have an equity investment or long-term debt security certified as a qualified equity investment and eligible for the tax credit permitted by KRS 141.434 shall apply to the department. The qualified community development entity shall submit an application on a form that
the department provides that shall include but not be limited to:

(a) The name, address, tax identification number, and evidence of the certification of the entity as a qualified community development entity;

(b) A copy of an allocation agreement executed by the entity or its controlling entity and the Community Development Financial Institutions Fund, which includes the Commonwealth of Kentucky in its service area;

(c) A certificate executed by an executive officer of the entity attesting that the allocation agreement remains in effect and has not been revoked or canceled by the Community Development Financial Institutions Fund;

(e) The name and tax identification number of any person or entity eligible to utilize tax credits as a result of the issuance of the qualified equity investment;

(f) Information regarding the proposed use of proceeds from the issuance of the qualified equity investment;

(g) A nonrefundable application fee in an amount set by the department. This fee shall be paid to the department and shall be required of each application submitted; and

(h) In the case of applications submitted on or after January 1, 2014, the refundable performance fee required by subsection (8) of this section.

(2) The department shall review applications in the order in which they are received. Within thirty (30) days after receipt of a completed application containing the information necessary for the department to certify a potential qualified equity investment, including the payment of the application fee, the department shall approve or deny the application. If the department intends to deny the application, it shall inform the qualified community development entity, by written notice sent via certified mail and any other such means deemed feasible by the department, of the
grounds for the denial. Upon receipt of the notice of intended denial by the qualified community development entity:

(a) If the qualified community development entity provides any additional information required by the department or otherwise completes its application within fifteen (15) days, the application shall be considered completed as of the original date of submission, however the department shall have an additional thirty (30) days to either approve or deny the application as completed; or

(b) If the qualified community development entity fails to provide the information or complete its application within the fifteen (15) day period, the application shall be deemed denied and must be resubmitted in full with a new submission date.

(3) If the application is deemed complete, the department shall certify the proposed equity investment or long-term debt security as a qualified equity investment and eligible for tax credits under KRS 141.432 to 141.434, subject to the annual cap limitations contained in KRS 141.434. The department shall provide written notice sent via certified mail and any other means deemed feasible by the department, of the certification to the qualified community development entity. The notice shall include the names of those taxpayers who are eligible to claim the credits and their respective credit amounts. If the names of the persons or entities that are eligible to claim the credits change due to a transfer of a qualified equity investment or a change in an allocation pursuant to KRS 141.434, the qualified community development entity shall notify the department of such change.

(4) Within ninety (90) days after receipt of the notice of certification, the qualified community development entity shall issue the qualified equity investment and receive cash in the amount of the certified purchase price. The qualified community development entity shall provide the department with evidence of the receipt of the
cash investment within ten (10) business days after receipt. If the qualified community development entity does not receive the cash investment and issue the qualified equity investment within ninety (90) days following receipt of the certification notice, the certification shall lapse, and the entity may not issue the qualified equity investment without reapplying to the department for certification. A certification that lapses shall revert back to the department and may be reissued only in accordance with the application process outlined in this section.

(5) The department shall certify qualified equity investments in the order applications are received by the department. Applications received on the same day shall be deemed to have been received simultaneously. For applications received on the same day and deemed complete, the department shall certify, consistent with remaining tax credit capacity, qualified equity investments in proportionate percentages based upon the ratio of the amount of qualified equity investment requested in an application to the total amount of qualified equity investments requested in all applications received on the same day. If a pending request cannot be fully certified because of the limitations contained in KRS 141.434, the department shall certify the portion that may be certified unless the qualified community development entity elects to withdraw its request rather than receive partial credit.

(6) (a) The department may recapture any portion of a tax credit allowed under this section if:

1. Any amount of federal tax credit that might be available with respect to the qualified equity investment that generated the tax credit under this section is recaptured under 26 U.S.C. sec. 45D. In such case, the department's recapture shall be proportionate to the federal recapture with respect to the qualified equity investment;

2. The qualified community development entity redeems or makes a
principal repayment with respect to the qualified equity investment that
generated the tax credit prior to the final credit allowance date of the
qualified equity investment. In such case, the department's recapture
shall be proportionate to the amount of the redemption or repayment
with respect to the qualified equity investment; or

3. The qualified community development entity fails to invest:
   a. In the case of a qualified equity investment issued prior to January
      1, 2014, at least eighty-five percent (85%) of the purchase price of
      the qualified equity investment in qualified low-income
      community investments in qualified active low-income community
      businesses located in the Commonwealth within twenty-four (24)
      months of the issuance of the qualified equity investment and
      maintain this level of investment in qualified low-income
      community investments in qualified active low-income community
      businesses located in the Commonwealth until the last credit
      allowance date for the qualified equity investment; and
   b. In the case of a qualified equity investment issued on or after
      January 1, 2014, at least one hundred percent (100%) of the
      purchase price of the qualified equity investment in qualified low-
      income community investments in qualified active low-income
      community businesses located in the Commonwealth within
      twelve (12) months of the issuance of the qualified equity
      investment and maintain this level of investment in qualified low-
      income community investments in qualified active low-income
      community businesses located in the Commonwealth until the last
      credit allowance date for the qualified equity investment. In this
      case, the department's recapture shall be proportionate to the
amount of the redemption or repayment with respect to the qualified equity investment.

For purposes of calculating the amount of qualified low-income community investments held by a qualified community development entity, an investment shall be considered held by the qualified community development entity even if the investment has been sold or repaid; provided that the qualified community development entity reinvests an amount equal to the capital returned to or recovered from the original investment, exclusive of any profits realized, in another qualified active low-income community business in this state within twelve (12) months of the receipt of the capital. A qualified community development entity shall not be required to reinvest capital returned from qualified low-income community investments after the sixth anniversary of the issuance of the qualified equity investment, the proceeds of which were used to make the qualified low-income community investment, and the qualified low-income community investment shall be considered held by the issuer through the qualified equity investment's final credit allowance date.

(b) The department shall provide written notice sent via certified mail or other means deemed feasible by the department, to the qualified community development entity of any proposed recapture of tax credits pursuant to this subsection. The entity shall have ninety (90) days to cure any deficiency indicated in the department's original recapture notice and avoid such recapture. If the entity fails or is unable to cure the deficiency within the ninety (90) day period, the department shall provide the entity and the taxpayer from whom the credit is to be recaptured with a final order of recapture. Any tax credit for which a final recapture order has been issued
shall be recaptured by the department from the taxpayer who claimed the tax credit on a tax return.

(7) The department shall through administrative regulations promulgated in accordance with KRS Chapter 13A provide rules to implement the provisions of KRS 141.432 to 141.434, and to administer the allocation of tax credits issued for qualified equity investments.

(8) (a) On or after January 1, 2014, a qualified community development entity that seeks to have an equity investment or long-term debt security certified as a qualified equity investment and eligible for the tax credit permitted by KRS 141.434 shall, as part of the application, pay a refundable performance fee in an amount equal to one-half of one percent (0.5%) of the amount of the equity investment or long-term debt security requested to be certified as a qualified equity investment, not to exceed five hundred thousand dollars ($500,000).

(b) This fee shall be in the nature of a security deposit to ensure compliance on the part of a qualified community development entity. The fee shall be paid to the department and deposited in the New Markets performance guarantee account established by this subsection, and retained there as private funds until compliance with the provisions of this subsection has been established or as otherwise provided by this subsection.

(c) The fee may be refunded to the qualified community development entity that submitted it as follows:

1. In the case of any application that is ultimately denied pursuant to subsection (2) of this section, the department shall refund the full amount of the fee submitted with the denied application;

2. In the case of any qualified equity investment that is certified in an amount that is less than the amount requested, due to the limitations contained in KRS 141.434 and pursuant to subsection (5) of this section,
